PROFILE

Junior IT Administrator with over a year of hands-on experience in first-line support at a hospital: handling user requests, diagnosing hardware, system and application issues, and testing application changes by reproducing reported errors. Strong Microsoft 365 and Windows user support skills, basic Linux, Active Directory and networking, plus Python and SQL basics. Advanced English and Polish.

RELEVANT SKILLS

- User support: handling user requests and reported issues, reproducing errors, explaining solutions and checking that fixes work; clear communication with non-technical users.
- Application support: testing application scenarios and fixes, reporting defects clearly, supporting configuration and small changes in internal applications (basic application administration).
- Windows and Microsoft 365: strong application familiarity and day-to-day user support; workstation setup and PC troubleshooting.
- Networking and systems: LAN cabling, switches, connectivity troubleshooting; basic Linux; Active Directory - joining computers to a domain.
- Scripting and data: Python, basic SQL, PostgreSQL/SQLite, n8n automations for repetitive tasks. Ticketing tools: working with user requests daily; ready to learn ServiceNow.

PROFESSIONAL EXPERIENCE

Junior IT Administrator | ZOZ w Bolesławcu | 06.2025 - present

- Provide day-to-day technical support to hospital staff and diagnose hardware, operating system and application issues.
- Configure workstations and network devices, connect switches and LAN cabling, and investigate connectivity problems.
- Analyse user needs, reproduce reported errors and test application scenarios and fixes.
- Develop internal tools for repetitive tasks; worked on separate employee-management, scheduling and laboratory-process applications.

SELECTED PROJECTS

JobHunter - workflow automation

Personal automation platform combining n8n, PostgreSQL, local LLM services, Playwright and a React dashboard. Worked with structured data, workflow validation, automated tests and GitHub Actions CI. This supports a systematic approach to investigating problems across connected services.

LabFlow: Django/React laboratory workflow demo with user roles, validation and audit history; Windows/Ubuntu setup and recovery documentation.

EDUCATION

WSB Merito we Wrocławiu | 03.2026 - present

Network, systems and IT security engineering; part-time engineering studies, second semester.

Politechnika Wrocławska | 10.2022 - present

Robotics and Process Automation; engineering studies in progress, five semesters completed.

LANGUAGES AND AVAILABILITY

Polish - advanced; English - advanced / technical; Ukrainian and Russian - native. IT Step Python AI course, 02.2024 - 12.2024. Category B driving licence.

Seeking flexible working hours. From March 2027: available onsite in Wrocław up to 1–2 days per week, with remaining work remote. Open to part-time arrangements; start date by agreement.
