PROFILE

Junior IT Administrator with over a year of hands-on experience building internal tools for repetitive tasks and analysing user needs in a hospital, plus Python, n8n and Django/React automation projects. Used to turning business needs into working solutions, troubleshooting and documenting. Basic Java and earlier Android development. Ready to learn Power Automate, WEBCON and UiPath.

RELEVANT SKILLS

- Workflow automation: n8n workflows with PostgreSQL, Playwright and API integrations; Python scripts and internal tools replacing repetitive manual work.
- Requirements and business users: analysing hospital staff needs, building and testing internal applications, reproducing reported errors, explaining solutions.
- Programming: Python up to object-oriented level, basic Java, earlier Android development; REST APIs, JSON, basic SQL, PostgreSQL/SQLite. Power Automate, WEBCON, UiPath: to be learned.
- Troubleshooting and documentation: debugging, Git/GitHub, automated tests in CI, setup and recovery documentation.
- Windows and Microsoft 365: strong application familiarity; Linux basics, Active Directory domain joining.

PROFESSIONAL EXPERIENCE

Junior IT Administrator | ZOZ w Bolesławcu | 06.2025 - present

- Provide day-to-day technical support to hospital staff and diagnose hardware, operating system and application issues.
- Configure workstations and network devices, connect switches and LAN cabling, and investigate connectivity problems.
- Analyse user needs, reproduce reported errors and test application scenarios and fixes.
- Develop internal tools for repetitive tasks; worked on separate employee-management, scheduling and laboratory-process applications.

SELECTED PROJECTS

JobHunter - workflow automation and LLM application

Personal automation platform combining n8n, PostgreSQL, Playwright, local LLM services (Ollama, schema-constrained analysis), a Telegram human-in-the-loop step and a React dashboard. Automated tests (Node tests, pytest) run in GitHub Actions CI; Docker Compose configuration for local services.

LabFlow - Django/React workflow application

LabFlow (public demo, synthetic data): Python/Django 5.2 + Django REST Framework backend with OpenAPI, React/TypeScript frontend, SQLite/PostgreSQL, session authentication with CSRF, role-based permissions and audit history; backend and Vitest tests; Windows/Ubuntu deployment and recovery documentation.

EDUCATION

WSB Merito we Wrocławiu | 03.2026 - present

Network, systems and IT security engineering; part-time engineering studies, second semester.

Politechnika Wrocławska | 10.2022 - present

Robotics and Process Automation; engineering studies in progress, five semesters completed.

LANGUAGES AND AVAILABILITY

Polish - advanced; English - advanced / technical; Ukrainian and Russian - native. IT Step Python AI course, 02.2024 - 12.2024. Category B driving licence.

Seeking flexible working hours. From March 2027: available onsite in Wrocław up to 1–2 days per week, with remaining work remote. Open to part-time arrangements; start date by agreement.
