PROFILE

Robotics and Process Automation student at Politechnika Wrocławska (five semesters completed) with Python/Django projects and over a year of user support in a hospital: investigating and reproducing user-reported issues, testing application changes and explaining system behaviour to staff. Git, PostgreSQL and automated tests in GitHub Actions CI. No Odoo experience yet; ready to learn it in practice under guidance. Available mostly remotely.

RELEVANT SKILLS

- Python: business logic, data structures and object-oriented code; debugging, Git/GitHub and code-review workflow; IT Step Python AI course (2024).
- Web applications: Django 5.2 and Django REST Framework, models, views and permissions (LabFlow); React/TypeScript frontend.
- Issue investigation and user support: reproducing reported issues, writing them up clearly, answering user questions and checking fixes.
- Databases and testing: PostgreSQL/SQLite, basic SQL; automated tests (pytest, Vitest) in GitHub Actions; reading logs and checking builds in CI.
- Internal tools: automating repetitive tasks, internal applications for hospital employees; Microsoft 365, Linux basics.

PROFESSIONAL EXPERIENCE

Junior IT Administrator | ZOZ w Bolesławcu | 06.2025 - present

- Provide day-to-day technical support to hospital staff and diagnose hardware, operating system and application issues.
- Configure workstations and network devices, connect switches and LAN cabling, and investigate connectivity problems.
- Analyse user needs, reproduce reported errors and test application scenarios and fixes.
- Develop internal tools for repetitive tasks; worked on separate employee-management, scheduling and laboratory-process applications.

SELECTED PROJECTS

LabFlow - Django/React workflow application

LabFlow (public demo, synthetic data): Python/Django 5.2 + Django REST Framework backend with OpenAPI, React/TypeScript frontend, SQLite/PostgreSQL, session authentication with CSRF, role-based permissions and audit history; backend and Vitest tests; Windows/Ubuntu deployment and recovery documentation.

JobHunter - workflow automation and LLM application

Personal automation platform combining n8n, PostgreSQL, Playwright, local LLM services (Ollama, schema-constrained analysis), a Telegram human-in-the-loop step and a React dashboard. Automated tests (Node tests, pytest) run in GitHub Actions CI; Docker Compose configuration for local services.

EDUCATION

WSB Merito we Wrocławiu | 03.2026 - present

Network, systems and IT security engineering; part-time engineering studies, second semester.

Politechnika Wrocławska | 10.2022 - present

Robotics and Process Automation; engineering studies in progress, five semesters completed.

LANGUAGES AND AVAILABILITY

Polish - advanced; English - advanced / technical; Ukrainian and Russian - native. IT Step Python AI course, 02.2024 - 12.2024. Category B driving licence.

Seeking flexible working hours. From March 2027: available onsite in Wrocław up to 1–2 days per week, with remaining work remote. Open to part-time arrangements; start date by agreement.
